

Emily Guthrie, Ph.D. is a Senior Research Associate in the Patient Square Insights group at Patient Square Capital. Patient Square Capital is a dedicated health care investment firm that will seek to make attractive investments by partnering with best-in-class management teams whose products, services and technologies improve health. Dr. Guthrie works on the Patient Square Insights team, which is a proprietary research and due diligence center of excellence that delivers insights into technically complex areas of health care including disease areas, epidemiology and market sizing, regulatory, policy and reimbursement. Previously, Dr. Guthrie was a Consultant at the Boston Consulting Group, where she specialized in health care strategy and private equity due diligences. Prior to consulting, Dr. Guthrie received a PhD in Chemistry from UC Berkeley and a BS in Chemistry from Brown University. Her academic research focused on drug delivery vehicles for targeted cancer therapies, and her technical expertise includes protein engineering, biotechnology, and chemical biology.
